

# Safe Harbor Protocol Team Pilot Site Grant FAQ

**Q:** If we are already working on Safe Harbor protocol (and receiving support or help from SVJI @ MNCASA), are we eligible to apply?

**A:** Yes. Communities across the state may currently be working on various aspects of the multidisciplinary response, from active case management, to awareness and community engagement, to protocol development. Provided the applicant meets the criteria outlined in the RFP, they are eligible to apply.

**Q:** We just heard that another group in our county is applying for this grant. Can we still apply, or should we coordinate with the other group?

**A:** Provided the applicant meets the criteria outlined in the RFP, they are eligible to apply for this grant. A strong application will demonstrate coordination with, or a plan for outreach to, all relevant agencies and stakeholders.
